Subject: FW: draft memo with attachments

Charlotte- attached is a memo covering some points that PEF would advocate for consideration in regard to the budget deficit. These are more detailed than Ken would expect to cover in the Oct 21 meeting, but we offer them as background.

SUMMARY OF PEF POSITION:

PEF's top concern is to avoid layoffs. We also believe that it is not realistic to solve the problem by relying solely on spending cuts, and that cuts need to be balanced with revenue increases. The attached suggestions are our attempt to propose reasonable revenue options.
